

Fire Extinguisher Use Training

Occupational Safety Training Course

SHE Training Course: Fire Extinguisher Use SHE Course # 116

Course Description: This course provides basic information concerning fire, fire classes based on fuel type, principles for extinguishing fire, overview of extinguisher use, safe practices for fire emergencies and hands-on training by the Redstone Arsenal Fire Department. The training course is as defined in 29 CFR 1910.157 and MWI 8715.11.

Course Notes: Please note that SHE 115, "Fire Extinguisher Awareness" is a prerequisite to this hands-on training.

Target Audience: All MSFC civil service and contractor employees who intend to operate a fire extinguisher, or may be assigned to operate a fire extinguisher in the event of a fire. This is also recommended for Area and Building Managers and their designated assistants.

Additional Information: Class size is limited to a maximum of 20 people.

Visit the SHE Training Web Page:

(<http://msfcsma3.msfc.nasa.gov/dbwebs/apps/training/default.asp>) to register for the course.

Location: Bldg 4203, Parking Lot in far southeast corner

Date & Time: September 27, 2006 - 9:00 a.m.
